How to use this pamphlet

Enjoy your fishing, but be sure you know the rules!

To use this pamphlet, follow these steps:

- 1 **Restrictions:** Be familiar with the Statewide Fishing Restrictions on pages 6-9.
- 2 **Trout waters:** If you plan to fish for trout, please see separate trout regulations pamphlet, *Wisconsin 2004-2005 Trout Fishing Regulations and Guide*, available from your license distributor, County Clerk, or any DNR Service Center.
- 3 **Special regulations:** Check for special regulations on the water you will be fishing in the section entitled **Special Regulations-Listed by County** beginning on page 17.
- 4 **Great Lakes and Boundary Waters:** If you are planning to fish on the Great Lakes, their tributaries, or waters bordering other states, check the appropriate tables on pages 48-61.
- 5 **Statewide rules:** If the water you will be fishing is not found in the **Special Regulations-Listed by County** and is not a Great Lake or boundary water, statewide rules apply. See General Inland Waters table on pages 48-49.

Free Fishing Weekend— June 5-6, 2004. Every year, the first consecutive Saturday and Sunday in June is designated as Free Fishing Weekend throughout the state of Wisconsin. Residents and nonresidents of all ages can fish without a fishing license (and trout stamps) over these two days. However, all other fishing regulations (length limits, bag limits, etc.) apply.

Summary of Major Regulation Changes for 2004-2005

Season closure date change - The closing date for the general inland hook and line fishing season, rough fish spearing, and hook and line seasons on the Great Lakes and tributaries has been changed from March 1 to the first Sunday in March.

Lake sturgeon fishing is now restricted to waters specifically named in the regulation tables (pp 48-61). All other waters are closed to lake sturgeon fishing.

Other 2004-2005 regulation changes of more local significance are listed in the section entitled **Special Regulations - Listed by County** and are *italicized*.

The regulations in this pamphlet are effective April 1, 2004 through March 31, 2005. We welcome your suggestions on how to improve this pamphlet! Please send ideas to: WDNR, Fisheries Management and Habitat Protection, FH/3, P. O. Box 7921, Madison, WI 53707-7921

Fishing Licenses, Stamps, and Tags

Wisconsin residents who are 16 years old or older need a fishing license to fish in any waters of the state. Residents need a fishing license to take rough fish by hand or to spear fish where allowed. Residents do not need a fishing license to take smelt, rough fish, or minnows with nets, traps, and seines of legal size. (Obtain the 2004-2005 Wisconsin Spearing and Netting Regulations for additional spearing and netting regulations).

Nonresidents who are 16 or older need a nonresident fishing license to fish in Wisconsin waters with hook and line. Nonresidents also need a fishing license to take smelt, spear fish, or to take rough fish and minnows using nets and seines of legal size. Nonresidents may not sell minnows or smelt. Nonresidents need a fishing license to take rough fish by hand or to spear fish where allowed.

Fishing licenses are sold at DNR Service Centers, some county clerk offices, and at many bait shops, sporting goods stores, and marinas. Groups of disabled persons on fishing excursions conducted by nonprofit organizations may not need fishing licenses. Contact the WDNR Bureau of Customer Service and Licensing, (608) 266-2621 for more information.

All annual licenses are valid from April 1, 2004 through March 31, 2005

- Resident individual (annual) fishing license—Fee \$17.00
- Resident combination (husband and wife) license—Fee \$29.00. Issued to a legally married husband and wife who meet residency requirements.
- Resident sports license—Fee \$45.00. This license allows for fishing and hunting of small game and gun deer.
- Resident and nonresident junior sports license (12 to 17 years) - Fee \$35.00
- Resident conservation patron license—Fee \$140 (Nonresident fee \$600). This license serves as a substitute for separate licenses and stamps for annual fishing, inland trout fishing, Great Lakes trout and salmon fishing, hunting small game, turkey, pheasant, deer, waterfowl, archer hunting, and trapping. (trapping for residents only). You also receive an admission sticker for state parks, state forests and state trails, and a one-year subscription to Wisconsin Natural Resources magazine.
- Resident and nonresident junior conservation patron license (12-17 years) - Fee \$75.00
- Resident reduced- rate fishing license—Fee \$7.00. Required of anglers 16 and 17 years of age and anglers 65 years of age and older. Residents born before January 1, 1927 do not need a fishing license. Simply carry proof of age when fishing. Nonresident senior citizens must purchase a regular nonresident license.

- Resident annual fishing licenses for the disabled —Fee \$7.00. Anglers must provide proof they are receiving Social Security Disability Benefits or Railroad Retirement because of disability. Discount applies to fishing license only. Disabled nonresidents need to buy a regular nonresident license.
- Resident annual disabled veteran’s fishing license —Fee \$3.00. Veterans must provide proof they are receiving benefits from the Veteran’s Administration for a service or non-service related disability of more than 70%. Nonresident disabled veterans must purchase a regular nonresident license.
- Free annual resident armed forces fishing license for members of the U.S. armed forces who exhibit proof that they are in active service with the armed forces and that they are a resident on furlough or leave.
- Nonresident individual (annual) fishing license—Fee \$40.00.
- Nonresident 4-day individual license—Fee \$18.00.
- Nonresident 15-day individual license—Fee \$24.00.
- Nonresident 15-day family license—Fee \$40.00. Includes children 16 & 17 years old.
- Nonresident annual family license—Fee \$65.00. Includes children 16 & 17 years old.
- Annual Inland Trout Stamp Privilege (residents and nonresidents)—\$7.25. *See Wisconsin 2004-2005 Trout Fishing Regulations and Guide* for license restrictions. Required in addition to the fishing license to fish trout on tributaries to Lake Superior and all inland waters, except Green Bay and Lake Michigan tributaries up to the first dam or lake.
- Annual Great Lakes Trout and Salmon Stamp Privilege (residents and nonresidents)—\$10.00. Required in addition to the fishing license to fish trout or salmon on Lake Superior, Lake Michigan, Green Bay and the tributaries of Lake Michigan and Green Bay up to the first dam or lake - see definition on page 55.
- Two-day Sports fishing license for residents and nonresidents—Fee \$14.00. This license entitles a resident or nonresident to fish the outlying waters of Lake Superior, Lake Michigan, and Green Bay, as well as Lake Michigan and Green Bay tributaries upstream to the first dam or lake. No Great Lakes trout and salmon stamp privilege is required because the privilege is included in the license.

Automated License Issuance System

The automated license issuance system (ALIS) for license and stamp sales has eliminated the need to affix a stamp to your license when fishing for trout in inland waters or salmon and trout on the Great Lakes. The stamp privilege you have purchased will be printed on the license. If you pay for a stamp and still want to receive the actual stamp, you can get one at a DNR service center at no additional cost or through the mail for an additional fee.

Lost Fishing Licenses/Stamps

If you lose your fishing license, you may obtain a duplicate for \$7.00 at DNR Service Centers, some county clerk offices, or other ALIS vendors. **Duplicate stamps are not available. Lost stamps will need to be replaced by purchasing a new stamp privilege at full price.**

Inland Trout/Great Lakes Trout and Salmon Stamp Privileges

You must have an inland trout stamp privilege if you need a fishing license and intend to fish for trout in inland waters, including streams flowing into Lake Superior. You need a Great Lakes Trout and Salmon Stamp Privilege to fish for trout and salmon in Lake Superior, Lake Michigan, and streams that flow into Green Bay and Lake Michigan from their mouths up to the first dam or lake including the Milwaukee River upstream to the Grafton Dam in the village of Grafton and tributaries of the Milwaukee River upstream to the first dam or lake, and the Menomonee River upstream to the Lepper Dam in the village of Menomonee Falls and tributaries of the Menomonee River upstream to the first dam or lake. Anyone who is exempt from the requirements to have a fishing license or who is not

required to pay a fee for a fishing license also does not need to purchase an Inland Trout or Great Lakes Trout and Salmon Stamp Privilege to fish for trout in those waters. Anyone who must purchase a fishing license, must also purchase trout stamp privileges to fish trout waters. Please consult the *2004-2005 Trout Fishing Regulations and Guide* for further trout and salmon information. For online information on Lake Michigan and its tributaries visit <http://www.dnr.state.wi.us/org/water/fhp/fish/lakemich>

Fishing Guide Licenses

Only licensed fishing guides may guide anglers for monetary compensation. Guide licenses may be purchased for a fee of \$40 for a resident and \$100 for a nonresident. Interested persons may call 608/266-2621 for application materials.

Lake Sturgeon Tags

If you fish for lake sturgeon with hook and line, you must first obtain a free tag from your local DNR Service Center or ALIS licensing outlet. You are allowed one tag for Lake Superior, Wisconsin-Minnesota boundary waters, or inland waters, and a second, separate tag for fishing Wisconsin-Michigan boundary waters. After you catch a lake sturgeon of legal length that you wish to keep, immediately validate and attach your tag to the fish just in front of the sturgeon's tail, then register your catch at a DNR registration station no later than 6 p.m. the day after you caught the fish.

Statewide Fishing Restrictions

It is illegal—

Licenses

- to fish in any waters of this state without a Wisconsin fishing license and stamp privilege as required. **You must have your fishing license with you when fishing** and present it to a warden on request. Even waters with no public access (including most private ponds) are considered waters of the state and the appropriate license, tag, or stamp is still required.
- to possess, loan, or borrow another person's license, or tag.

Angling Methods and Lures

- to fish with more than three hooks, baits, or lures.
- to take fish by any means other than angling unless otherwise provided.
- to leave any fish line unattended except when using licensed setlines or bank poles. During the open water season, anglers must remain within 100 yards of their line.
- to fish using the technique known as "jug" fishing in all waters of the state.
- to possess or use spears, snag hooks, gill nets, trammel nets, hoop nets or fish traps or to use or possess on the water unlicensed setlines, bank poles and trotlines. See the *2004-2005 Wisconsin Spearing and Netting Regulations* for more information.
- to fish by snagging, foul-hooking, or attempting to hook fish other than in the mouth.
- to keep foul-hooked, snagged or any fish not hooked in the mouth.
- to take fish other than rough fish by hand.
- to take fish using a firearm or pellet gun.
- to fish with a hook and line while possessing a dip net (a landing net is not a dip net).
- to motor troll except in counties and waters listed in the section titled Special Regulations - Listed by County (see definition of motor trolling on page 14).
- to tag fish without obtaining a scientific collectors permit.

Bait

- to release unused bait fish into Wisconsin's lakes, ponds, rivers, and streams.
- to possess live crayfish while fishing or while possessing angling equipment on any inland water, except the Mississippi River.

- to use goldfish or alewife in any form for bait in state waters except that alewife may be used on Lake Michigan, Green Bay and their tributary streams up to the first dam or lake.
- to remove insect larvae from a trout stream except that a licensed angler may take insect larvae or nymphs from trout streams by hand (no seines or nets) during the open trout season for their immediate personal use as bait in the stream from which they were taken. All larvae and nymphs must be returned to the stream prior to leaving the stream from which taken.
- to use gamefish as bait unless they meet any length restriction for the water body you are fishing and are included in your daily bag limit for that species.
- to possess live bait on waters where only the use of artificial lures is authorized.

Seasons, Bag Limits, and Length Limits

- to fish for a species of fish during the closed season for that species (includes catch and release fishing).
- To possess a fish that is above a maximum length limit or below the minimum length limit established for the waters being fished
- to take, catch, kill, or fish for any variety of fish in excess of the daily bag limit.
- to group bag. For example, if an angler catches a limit of 25 panfish and gives them to another person, the person catching the fish has attained their daily bag limit and can no longer keep panfish that day. Any fish received are considered part of the recipient's possession limit, but not part of their daily bag limit (unless they are on the water)
- to possess or fish for more than the daily bag limit of fish while you're fishing or while you're on the water, shore of the water, or on the ice.
- to possess more than twice the daily bag limit at any time, except on the Wisconsin-Michigan boundary waters where only one daily bag limit can be possessed. The possession limit for the Great Lakes and its tributaries having anadromous trout is twice the daily bag limit.
- to transport fish subject to a length limit, unless you leave the skin and scales intact (on the fish); the heads and tails can't be removed unless the dressed fish or fillets meet the minimum length limit.
- to sort fish. Any fish you take into possession which you do not release immediately is part of your daily bag limit even if it is released later.
- to fish in trout streams when the trout season is closed except that rough fish may be taken by hand.

Restricted Fishing Areas

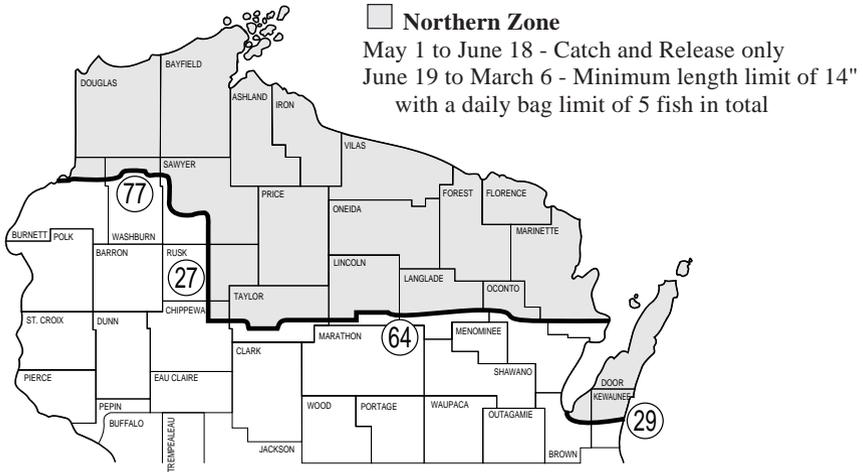

- to sponsor a fishing tournament without a permit from the DNR.
- to fish in fish refuges. Refuges are posted "No Fishing" with DNR or U.S. Fish and Wildlife Service signs. See additional information on page 16.
- to fish using any method other than hook and line within 200 feet of a fishway, lock, or dam.
- to fish within 500 feet of any DNR net or weir when the area is posted by DNR.

Other

- to deposit fish entrails into Wisconsin waters.
- to use or possess a box or container in which to hold live fish unless a legible tag bearing the owner or user's name and address is attached to the container. Containers and live boxes used by anglers while fishing are exempt from this requirement.
- to buy, sell, or trade any game fish. It is legal to sell rough fish (definition; page 12).
- to transport live rough fish (except goldfish, dace, and suckers) into or within the state without a permit from the DNR.
- **to withhold catch and fishing effort information when interviewed by authorized DNR creel clerks.**

Largemouth and Smallmouth Bass Management Zones

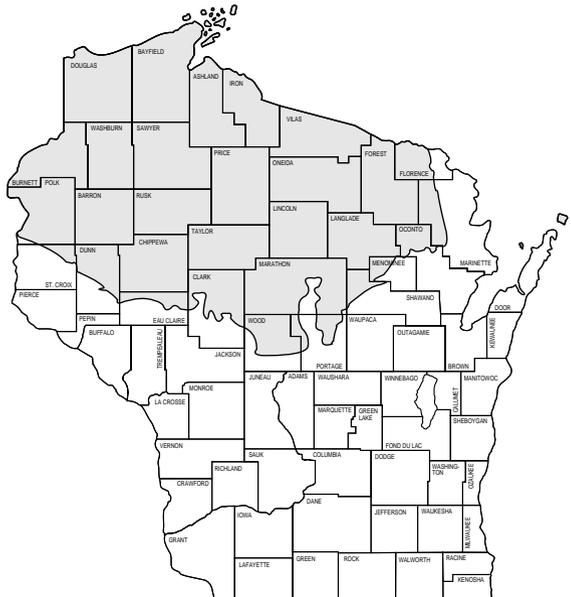

The following map identifies the boundary and regulation differences between the Northern and Southern Bass Management Zones. Check the **Special Regulations - Listed by County** for exceptions to the following statewide regulations. See tables on pages 55-59 for specific application of Northern and Southern Bass Management Zone rules for Lake Michigan, Green Bay, and their tributaries.

Southern Zone
 May 1 to March 6 - Minimum length limit of 14" with a daily bag limit of 5 fish in total.

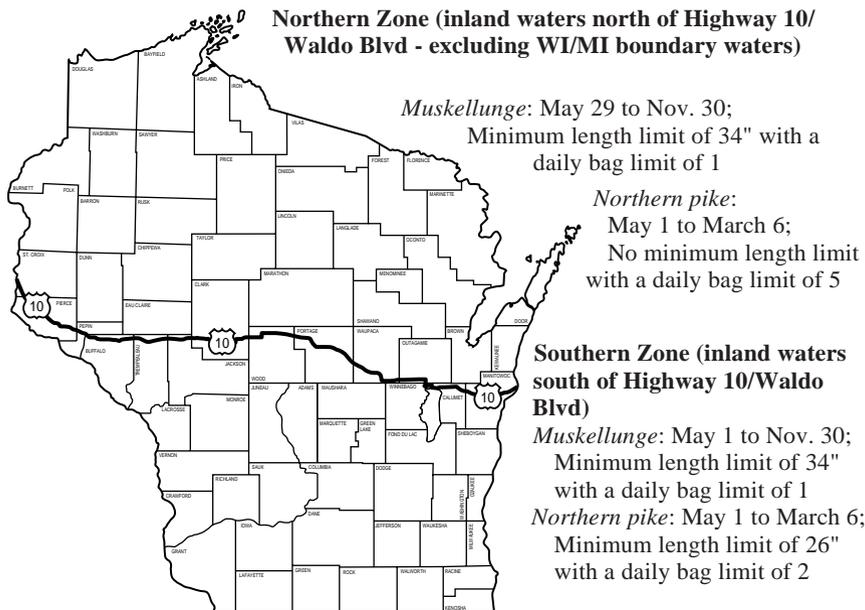

Ceded Territory

The ceded territory encompasses 22,400 square miles of northern Wisconsin that was ceded to the United States by the Lake Superior Chippewa Tribes in 1837 and 1842. Some special fisheries regulations occur in the ceded territory as a result of Chippewa off-reservation treaty rights as mandated by Federal Court rulings. Some waters may have more restrictive bag or length limits. Check for public notices at access points.

Muskellunge and Northern Pike Management Zones

US Highway 10 divides the state into a northern and southern management zone for muskellunge and northern pike. Check the **Special Regulations - Listed by County** for exceptions to the following statewide regulations:

General Information

Anglers' Club

The "Hooked on Wisconsin" Anglers' Club is a program that acknowledges resident and nonresident anglers for their outstanding sport fishing catches. Anglers may apply for membership in the Live Release, Kept Fish, or Mixed Bag categories. Write: Anglers' Club, FH/3, P.O. Box 7921, Madison, WI 53707-7921 for complete details.

Artificial Lures

Some regulations restrict anglers to the use of artificial lures only. Just what is an artificial lure? An artificial lure means a spoon, spinner, plug, or other fish bait made of hair, feathers, cork, wood, rubber, metal, plastic, or other synthetic materials, or combinations of these materials. An artificial lure may not include natural or organic food stuffs like corn, marshmallows, dough, cheese, meat, living or dead organisms or parts thereof, except hair, feathers, cork, wood, and rubber.

Boating Information

A wearable personal flotation device (life jacket) of the correct size for the intended wearer must be available for each person in a boat. Additional boating information is contained in Wisconsin Boating Regulations available from any WDNR office, or by calling (608) 266-2141. Information on boat registration can be obtained by calling (608) 266-2107.

Camping

Camping on state-owned lands is strictly prohibited except within designated camping areas. Check with the local DNR office for specific camping regulations

Catch and Release: It will grow on you!

Fish you wish to release, and fish not meeting the legal length limit, should be handled carefully with wet hands and played as little as possible. When fish are deeply-hooked, cut the line as closely to the hook as possible and let the fish go. **ATTENTION MUSKY ANGLERS!** It is recommended that you use a quick set rig when fishing for muskies with live bait.

Clamming

People who wish to gather more than 50 pounds of clams a day or buy or sell any clams taken from Wisconsin waters must be licensed and must comply with commercial clamming regulations. The National Park Service strictly prohibits the collection of live clams (or shell) from the St. Croix and Namekagon rivers. For additional clamming regulation information, call or write DNR's Bureau of Fisheries Management and Habitat Protection, FH/3, P.O. Box 7921, Madison, WI 53707, (608) 267-7498.

Crayfish

- A fishing or small game license is required to take crayfish.
- No person may possess live crayfish and angling equipment simultaneously on any inland water except the Mississippi River.
- No person may place, deposit, throw or otherwise introduce live crayfish or crabs into any water of the state unless a permit authorizing introduction has been issued.
- Crayfish traps placed in trout streams shall conform to the dimensions of minnow traps. See **Minnow Regulations** on page 13.

There are no bag or size limits on crayfish and no closed season except on the **Wisconsin/Minnesota boundary waters** where the open season is from May 1 to the following March 1, both dates inclusive.

Crayfish scoops may be used in the **Wisconsin/Minnesota boundary waters** provided the scoops do not exceed 4 feet in length, 3 feet in width and 18 inches in depth attached to a handle not to exceed 4 feet in length.

Crayfish may be taken in all waters by the following means only: By hand, by use of minnow seines and minnow dip nets, where the same are permitted for the taking of minnows, and by crayfish traps (other than in trout streams) with the entrance to the trap not to exceed 2-1/2 inches at the greatest diagonal measurement. Traps must bear the name and address of the owner and must be raised and emptied at least once each day following the day set.

Only parts of fish or fish by-products including fish meal or prepared parts of such fish may be used for bait.

Floats or markers used to locate traps may not exceed 5 inches in size and may not extend more than 4 inches above the water surface and be of a color other than orange or fluorescent coloration.

Endangered and Threatened (E/T) Species

Without a permit, it is illegal to take, transport, or sell any species that is included on the Wisconsin Endangered and Threatened Species List. Endangered fish species include skipjack herring, crystal darter, gravel chub, bluntnose darter, starhead topminnow,

goldeye, striped shiner, black redhorse, pallid shiner, and slender madtom. Threatened fish species include blue sucker, black buffalo, longear sunfish, redbfin shiner, river redhorse, greater redhorse, pugnose shiner, Ozark minnow, gilt darter, and paddlefish. Visit <http://www.dnr.state.wi.us/org/land/er/> to find additional listed species information.

Frogs and Turtles

A fishing or small game license is required to take frogs and turtles. Some species are protected and may not be harvested.

These regulations apply to native Wisconsin frog and turtle species, regardless of their origin.

No non-resident harvest or possession is allowed, except for unprotected aquatic turtles.

License Requirements

All residents and non-residents who collect, attempt to collect, or possess native Wisconsin aquatic turtles must possess one of the following resident or non-resident licenses: Fishing, Small Game, Sports, Conservation Patron, Setline*, or Set or Bank Pole*. Existing Senior Citizen Recreational Cards also qualify. In addition to the licenses listed above, residents holding a Commercial Fishing License may harvest turtles on Mississippi River Boundary Waters. (* These licenses are available only to residents).

Seasons

Frogs. The open frog season runs from the Saturday nearest May 1 through December 31. There is no open season for bullfrogs, *Rana catesbeiana*, in Jefferson County.

Turtles. The open turtle season runs from July 15 through November 30. Turtles or turtle eggs may not be taken during the closed season.

Possession Limits

Persons may collect or possess up to 5 individuals of each species with the following exceptions:

- The possession limit for snapping turtles and softshell turtles is 3 statewide. The one exception is the Mississippi River, where the possession limit is 10 for snapping turtles and 5 for softshell turtles.
- Licensed bait dealers and registered fish farmers may possess more than 5 specimens of any unprotected amphibian species which are collected or possessed as part of a bait collection or shipment.

It is illegal to sell native amphibians and reptiles, except:

- Eastern tiger salamanders, mudpuppies, and northern leopard frogs collected in state may be sold in state to education and research institutions*.
- Native amphibians and reptiles collected outside the state may be sold out of state*
- Legally harvested dead turtles and their parts may be sold during the open season

*Note: A Class A Captive Wild Animal Farm License is required to sell under the above exceptions

Size Limits

- Snapping turtle size limits are a 12-inch minimum and a 16-inch maximum carapace (top shell) length.
- There are no size limits for other turtles.

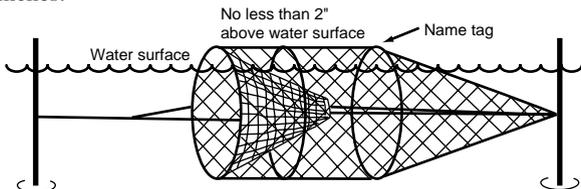

Harvesting Methods

- It is unlawful to take frogs by firearms or airguns.

- Turtles may be taken by hand, dip net, hook and line, set line, set or bank poles, hooking, or hoop net trap (see allowed design). No other trap types are allowed.
- Turtles may not be taken by hook and line from trout streams during the closed trout season.
- The number of hoop traps that can be operated are 10 in Iowa-Wisconsin or Minnesota-Wisconsin boundary waters and 3 in all other waters of the state.

Hoop Net Trap Specifications

Traps must be made of stretchable fabric (e.g., nylon) and must have a minimum mesh stretch of 6 inches.

No wire mesh is allowed. Each trap must have a metal tag showing the name and address of the operator attached, and must be visible above the water's surface. The operator identified on the trap tag is the only person authorized to tend these traps. Traps must be set with the hoops exposed a minimum of 2 inches above the water's surface. Turtle traps must be checked and the entrapped contents removed at least once each day after the day they are set in all waters.

Game Fish, Rough Fish, and Minnows; Definitions

By Wisconsin law, game fish are defined as all varieties of fish except rough fish and minnows. Rough fish include dace, suckers, carp, goldfish, redhorse, freshwater drum, burbot, bowfin, gar, buffalo, lamprey, alewife, gizzard shad, smelt, mooneye, and carpsuckers. Minnows include suckers, mud minnow, madtoms, stonecat, killifish, stickleback, trout perch, darters, sculpins, and all species in the minnow family (except goldfish and carp).

Health Advisory for Eating Fish

Although fish are delicious and nutritious, some fish contain contaminants at levels that can pose health risks to people who eat fish frequently. To reduce people's exposure to these contaminants, the state issues advice to help you plan what fish to keep as well as how often and how much fish to eat. Please read the information below and consult the complete fish consumption advisory as a guide to eating fish low in contaminants. Fish consumption advice is provided for fish that contain mercury and for fish that contain polychlorinated biphenyls (PCBs) and other compounds.

Statewide mercury advisory: Mercury is found in almost all waters throughout the state. Wisconsin's new statewide advice for most of Wisconsin's inland (non-Great Lakes) waters recommends that:

Women of childbearing years, nursing mothers and all children under 15 may eat:

- One meal per week of bluegill, sunfish, black crappie, white crappie, yellow perch or bullheads **AND**
- One meal per month of walleye, northern pike, smallmouth bass, largemouth bass, channel catfish, flathead catfish, white sucker, drum, burbot, sauger, sturgeon, carp, white bass and rock bass or other species*

*The exception is muskies, which should not be eaten by this group of people because of the high mercury content in muskies.

Men, and women beyond their childbearing years may eat:

- Unlimited amounts of bluegill, sunfish, black crappie, white crappie, yellow perch or bullheads **AND**
- One meal per week of northern pike, smallmouth bass, largemouth bass, channel catfish, flathead catfish, or other species.

On certain waters, where data indicates higher mercury levels, more restrictive advice is needed. In addition, fish purchased from stores or restaurants may contain mercury. Consult the fish consumption advisory booklet for more specific advice.

PCB advisory: PCBs are most often associated with industrialized river systems and the Great Lakes. Check the complete fish consumption advisory for specific recommendations on how many meals you can safely eat of fish species caught from waters contaminated with polychlorinated biphenyls (PCBs), such as Lakes Michigan and Superior, some large rivers and other surface waters. PCBs are generally stored in the fat of fish, so you can reduce PCB levels in fish you eat by trimming away the fatty areas and properly cooking your fish. The complete advisory contains more information on cooking and cleaning your fish.

Complete fish consumption advisory: You can download the complete fish consumption advisories directly from the website at: <http://www.fishingwisconsin.org>. For a printed copy, call or write your local DNR office or local health department for a free advisory. You can also call the Bureau of Fisheries Management and Habitat Protection at (608) 267-7498.

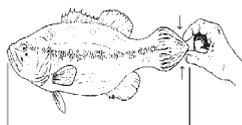

Ice Fishing

Fishing holes cut through the ice cannot measure more than 12 inches across. The doors of enclosed fishing shelters must be readily opened from the outside while occupied; they may be locked only while not in use. The shelter owner's name and address (in English) must be legibly painted or otherwise affixed on the outside of the fishing shelter with block lettering a minimum of one inch square and in contrasting colors. Fishing shelters that are occupied or otherwise in use are exempt from this requirement. Fishing shelters on Wisconsin boundary waters with Iowa, Michigan or Minnesota must display the name and address on all shelters at all times, even portable shelters that are occupied or in use. After the date for removing shelters from the ice, you may continue to use a portable shelter, but you must remove it when it is not occupied. Shelters must be removed daily on the Fox River in Brown County from the DePere Dam downstream. All ice fishing shelters must be completely removed from:

- Lake Michigan, Green Bay, Lake Superior, and inland waters north of Highway 64 by March 15.
- Inland waters south of Highway 64 by March 5.
- Wisconsin-Michigan boundary waters by March 15.
- Wisconsin-Minnesota boundary waters by March 1.
- Wisconsin-Iowa boundary waters by February 20.

Measuring Fish

Fish must be measured in a straight line from the tip of the snout with the mouth closed to the end of the compressed tail.

Minnow Regulations

It is illegal for anyone to possess more than 600 minnows except licensed bait dealers and residents younger than 16 years. It is also illegal for nonresidents to sell minnows, crayfish, or frogs as bait. Residents more than 16 years old must have a bait dealer's license to sell

minnows, crayfish, or frogs for bait. Residents under 16 years can possess no more than 5,000 of each species and can sell less than \$500 worth annually without a bait dealer's license. NO minnow species may be netted or trapped in Lake Superior and its tributaries. No minnow species may be trapped or netted in Lake Michigan or Green Bay, except suckers may be taken with dip nets only. No minnow species, except suckers, may be trapped or netted from the tributaries to Lake Michigan and Green Bay. Only licensed bait dealers with a permit from the DNR, may use minnow seines or minnow dip nets of any type or description in inland trout streams or tributary spring ponds. During the open trout season, people who do not possess a bait dealer's license can't use more than three minnow traps to remove minnows from trout streams.

Bait minnows may be taken, where allowed, by the following methods only:

- Hook and line.
- With seines no more than 35 feet long with a mesh no larger than one-half inch stretch measure in inland waters. Fifty-foot lengths of seine may be used in Minnesota and Iowa boundary waters.
- With dip nets no more than eight feet in diameter or square.
- With traps no more than 24 inches long and 16 inches in diameter or square with a throat measuring one-and-a-half inches or less. All traps must bear their owner's name and address and be emptied at least once every 48 hours (once every 24 hours on trout streams). On Minnesota and Iowa boundary waters, minnows must be removed from traps at least once a day from one hour before sunrise to one hour after sunset.

Motor Trolling

“Motor trolling” is trailing a lure, bait, or similar device used to attract or catch fish from a boat while being propelled (forwards or backwards) by a motor or a sail or while being towed by a boat being propelled by a motor or sail. Motor trolling is illegal except in some counties and waters as listed in the section titled **Special Regulations - Listed by County**, beginning on p. 17. Casting and immediate retrieval of a bait or lure while positioning a boat is not trolling. “Backtrolling” is only legal in waters where motor trolling is allowed. “Position fishing” is fishing from a boat where the fishing line extends vertically into the water while the boat is maneuvered (forwards or backwards) by a motor used to position the boat over underwater structure. Position fishing is allowed statewide in all waters.

Native American Reservations

Native American reservations in Wisconsin are governed by a unique blend of federal, state, and tribal law. You should find out about current tribal policies for natural resources use at each tribal headquarters before entering a reservation to hunt or fish. Failure to do so may place you in conflict with the law and subject you to enforcement action.

Panfish

The term “panfish” is defined as any of the following species: bluegill, pumpkinseed, black and white crappie, yellow perch, green sunfish, warmouth, and orangespotted sunfish.

Public Access

Many public fishing piers and boarding docks are now wheelchair-accessible. To receive information regarding barrier-free public access sites on Wisconsin waters, contact your nearest DNR service center. Each service center has a copy of *Fishing and Boating, Access for Everyone*. Copies of individual location maps with descriptions of the amenities available at that site can be provided to you. This information may be especially useful for anglers with disabilities and others looking for good shorefishing opportunities.

Record Fish

If you think you or someone else has caught a fish that may be a state record, here's what to do:

- don't clean or freeze the fish.
- keep the fish cool—preferably on ice.
- get the fish weighed as soon as possible on a certified scale (found in grocery, hardware stores, etc.) and witnessed by an observer.
- contact the nearest DNR office to get the fish species positively identified and to find out whether the fish is a state record.

For a complete list of Wisconsin's record fish, contact any DNR Service Center or write to or call: WDNR, Bureau of Fisheries Management and Habitat Protection, FH/3, P.O. Box 7921, Madison, WI 53707, (608) 267-9426.

Refuges, Fish

Occasionally, fish need additional protection during critical times of their lives. Fish refuges are one of the tools a fisheries biologist uses to provide this protection. Refuges are generally created to protect spawning fish or the nursery areas of developing fish. All refuges are posted with No Fishing signs from the DNR or the US Fish and Wildlife Service. It is illegal to take, disturb, catch, capture, kill, or fish for fish in any manner in a posted refuge. Some refuges are operated year round, while others restrict angler access seasonally. Anglers should contact their local fisheries biologist for more detailed information on refuges in their immediate area.

Residency, Establishing

You are eligible to obtain a resident license if:

- immediately before applying for a license, you have maintained your permanent residence and have lived in Wisconsin for a period of 30 days. Ownership of property and payment of property tax do not alone establish residency.
- you are on active military duty stationed in Wisconsin;
- you are a full-time undergraduate student in residence at a Wisconsin college or university offering a Bachelor's Degree; or,
- you are an alien residing in the state while attending a Wisconsin high school or agricultural short course at the University of Wisconsin.

Rough Fish

Suckers, redhorse, carp, and other rough fish may be taken by hand or hook and line. However, it is illegal to fish by hook and line in a trout stream during the closed trout season. (See separate *2004-2005 Spearing and Netting Regulations*). You may return rough fish taken by hand or hook and line to the water. Rough fish taken by spear or bow and arrow may not be returned to the water. Please do not leave them on shore.

Tagged Fish

DNR fisheries biologists attach tags to fish for research purposes. If you catch a tagged fish, please notify the nearest DNR office with the tag number, when and where the fish was caught, its length, and its weight. If you keep the fish, send in the tag; if you release it, leave the tag on the fish but be sure to record the tag number. It is illegal for an angler to tag a fish without first obtaining a scientific collectors permit.

Urban Fishing

Urban fishing waters are small lakes and ponds under 25 acres that are intensively and cooperatively managed with a municipality. They are posted with signs, have special regulations, and their shoreline is accessible to the public. Special regulations on designated urban waters in the Southeast Region are: a year-round season, no length limits, and a special season (March 13 thru April 23, 2004) for juveniles 15 years of age and younger and certain disabled anglers only. They also have a daily bag limit of three (3) trout, one (1) gamefish (largemouth bass, smallmouth bass, walleye, sauger, and northern pike), and ten (10) panfish (bluegill, crappie, pumpkinseed, yellow perch, and bullhead). The following urban waters in the counties in the SE Region are posted with the special regulations that apply: **Kenosha County:** Anderson Park, Bong Children's Pond, Poyer Park; **Milwaukee County:** Brown Deer Park, Dineen Park, Estabrook Park, Franklin High School, Greenfield Park, Holler Park, Humboldt Park, Jackson Park, Juneau Park, Kosciuszko Park, McCarty Park, McGovern Park, Miller Park, Mitchell Park, Oak Creek Parkway, Saveland Park, Shoetz Park, Scout Lake, Sheridan Park, Washington Park, Wilson Park; **Ozaukee County:** Harrington Beach Quarry, Mequon Rotary Park East and West, Pucketts Pond, Schowalter Park, Willow Brooke Park; **Racine County:** Gorney Park, Johnson Park, Lockwood Park, Pritchard Park, Quarry Lake, Reservoir Park; **Sheboygan**

County: Sheboygan Quarry, Memorial Park, River Park Lagoon; **Walworth County:** Ceylon Lagoon, Congdon Park, Millpond Park Pond **Washington County:** Boot Lake, Hartford Millpond, Homestead Hollow Park, Kewaskum Millpond, Sandy Knoll Park, Wells Lake; **Waukesha County:** Calhoun Park, Heyer Park North and South, Lepper Dam Millpond, Lions Park-Overland, Menomonee Park, Minooka Park, Muskego Park, Nixon Park, Regal Park, and Woodfield North and South

Current fish stocking and regulation information is available from February 15th through November 15th on the 24-hour Urban Waters Fishing Hotline at 414/263-8494 in the Milwaukee Metro Area or toll free at 1-888-FISH-LNE (1-888-347-4563).

Warden Authority

Conservation wardens performing their duties may enter private land at any time. Wardens may also seize as evidence all fish taken or possessed in violation of the law, and any equipment used in connection with a violation.

Special Regulations - Listed by County

Remember: These regulations apply in addition to the statewide general regulations! Trout regulations are covered in a separate booklet. *New regulation changes for 2004-2005 are italicized.* ☆ identifies a quality fishing opportunity.

WISCONSIN - MICHIGAN BOUNDARY WATERS

Includes the Brule, Menominee and Montreal rivers and their sloughs and flowages; that portion of Green bay at the mouth of the Menominee River between the “government pier” or break wall on the south and the “lighthouse pier” or breakwall on the north and a line connecting the eastern-most points of those breakwaters on the east; and Basin, Big, Big Bateau, Crampton, Crystal, Cyrus, Lac Vieux Desert, Little Presque Isle, Mamie, Mill, Norwood, Plum, Roach, Smoky, State Line, Tenderfoot and West Bay lakes.

FISHING RESTRICTIONS ON WISCONSIN—MICHIGAN BOUNDARY WATERS

- Each angler may fish with a total of three baits, lures or hooks.
- You may not take more than the daily bag limit of fish in a single day. The possession limit or maximum number of fish you may have in your possession AT ANY TIME is the SAME as the daily bag limit.
- Goldfish, alewife and live crayfish may not be possessed or used for bait on Wisconsin—Michigan boundary waters.
- All ice fishing shelters must be removed from Wisconsin-Michigan boundary waters by March 15.
- It is illegal to fish using any method other than hook and line within 200 feet of any fishway, lock or dam.
- Motor trolling is permitted on Wisconsin-Michigan boundary waters except Vilas County boundary waters, where motor trolling is prohibited.
- Wisconsin residents need a Wisconsin fishing license and a Michigan resident needs a Michigan fishing license to fish these waters. Residents of other states need a nonresident license from Wisconsin or Michigan. Regulations on these waters differ between the two states. You must obey the regulation of the state in which you are fishing. Wisconsin license holders must have a valid Great Lakes Trout and Salmon stamp privilege (except with a two-day Sports Fishing License) to fish trout or salmon in the Menominee River from the Hattie Street Dam downstream to the eastern end of the breakwalls in Green Bay.

TRIBUTARY STREAMS TO GREEN BAY & LAKE MICHIGAN

Tributary streams to Green Bay and Lake Michigan are defined as the Little River from its confluence with the Oconto River upstream to the Highway 141 bridge, the Kewaunee River and its tributaries (except Little Scarboro Creek, Scarboro Creek, Roger Creek, and Casco Creek), the Milwaukee River upstream to the Hwy 60 Grafton dam in the village of Grafton, and tributaries of the Milwaukee River upstream to the first dam or lake, the Menomonee River from its confluence with the Milwaukee River upstream to the Lepper Dam in the village of Menomonee Falls and tributaries of the Menomonee River upstream to the first dam or lake, the Pike River and its tributaries, streams flowing into the Fox River downstream of the DePere Dam, and all other streams and ditches upstream from their mouths to the first dam or lake. (The Menominee River, Wisconsin/Michigan boundary waters, see p. 50, and the Fox River upstream to the DePere Dam, Lake Michigan, see p. 58, are not considered tributary streams.)

“Green Bay” means those waters of Lake Michigan located to the west of the Green Bay-Lake Michigan Line. That line runs from Northport dock northeasterly to Plum Is. range light to the Plum Is. Coast Guard Station to Shellswick Dock (Lodell’s PT.) on Washington Is. along the west shore of Washington Is. to Boyer’s Bluff light then north to the State line.

“Green Bay” includes Green Bay, Sturgeon Bay, Sawyer Harbor, and the Sturgeon Bay Ship Canal located north and west of the center of the WPS power lines, and the Fox River from its mouth up to the dam at DePere.

FISHING RESTRICTIONS ON TRIBUTARY STREAMS TO GREEN BAY & LAKE MICHIGAN

- Alewife may be used as bait in tributaries, rivers, and ditches upstream to the first dam or lake. Live crayfish may not be possessed while fishing on the tributaries.
- Motor trolling is not permitted on the tributaries except in Racine County.
- **No hook and line fishing at night**—From October 1 to the first Saturday of the following May, hook and line fishing is prohibited from one-half hour after sunset to one-half hour before sunrise in the tributaries. This restriction DOES NOT apply to the Oconto River and its tributaries and the Peshtigo River, from the most downstream railroad bridge at the NE 1/4 of the NE 1/4 section 30, township 30 north, range 23 east, (Peshtigo City Garage) downstream to the mouth.
- **Hook size restriction**—From October 1 to the first Saturday of the following May, you may not use hooks that have a gape size larger than one-half inch from point to shank in tributaries.
- You must have a fishing license and a valid Great Lakes Trout and Salmon stamp privilege or a two-day Sports Fishing License to fish for trout and salmon in the tributaries (up to the first dam or lake).
- All other statewide general fishing restrictions apply (see pages 6-9).
- Smelt and suckers: See the 2004-2005 Wisconsin Sparing and Netting Regulations for regulations on dipnetting smelt and suckers in the tributaries.

- **Special open season for Green Bay tributaries** - the following stream sections are open year round for all species except muskellunge, lake sturgeon, lake trout, largemouth and smallmouth bass, and yellow perch (however, tributaries to these stream sections are not open all year): **Duck Creek** (Brown Co.), from the first dam above the Panperin Park footbridge (Village of Howard) downstream to Green Bay; **Suamico River** (Brown Co.), from the CTH "HS" bridge (Velp Ave.) downstream to Green Bay; **East River** (Brown Co.), from the CTH "XX" (Hoffman Road) bridge downstream to the Fox River; **Little Suamico River** (Oconto Co.), from the CTH "J" bridge downstream to Green Bay; **Pensaukee River** (Oconto Co.), from the CTH "J" bridge downstream to Green Bay; **Oconto River** (Oconto Co.), from the Stiles dam downstream to Green Bay; **Little River** (Oconto Co.), from the Highway 141 bridge downstream to the Oconto River; **Little River** (Marquette Co.), from the Rader Road bridge downstream to Green Bay; and **Peshtigo River** (Marquette Co.), from the Peshtigo dam downstream to Green Bay. (NOTE: there is no hook and line fishing allowed for any species on all other Green Bay and Fox River tributaries and ditches, including tributaries to the above streams, from their mouth up to the first dam or lake from March 8 - April 30).

New Fees Invested in Wisconsin Fisheries

Thank you for choosing to fish in Wisconsin in 2004 – we’ve got a lot of lakes and rivers to fish and a lot of fish waiting to be caught. I’m sure you have noticed that some fishing license fees have increased. Almost all funding used for DNR fisheries management programs comes from license fees which have been the same for the last seven years. We haven’t increased the size of our fisheries program, but our costs continue to rise through inflation. Also we need to complete some long overdue hatchery renovations. Last year we widely publicized the need for these fee increases to simply maintain our existing programs and received a lot of support from angling and hunting groups statewide and these changes were approved by the Legislature and Governor.

These fee increases will go directly back into fisheries management programs important to Wisconsin anglers – fully funding trout and warm water fish habitat improvement programs, continuing our nationally recognized wild trout stocking program, constructing fishing piers, increasing musky and walleye fingerling stocking, starting needed fish research studies, and filling many critical fish biologist and technician vacancies across the state. And we will begin renovation of our Wild Rose State Fish Hatchery which had serious water supply and infrastructure problems.

However, the fee increases were not intended to maintain all of our fisheries activities. While most important fisheries programs remain, the DNR fisheries program – like all of state government – is being asked to downsize. In 2003-04 we reduced programs by \$1.3 million and in 2004-05 we must permanently eliminate 8 fisheries positions. We cannot make these program reductions without some loss of services and anglers will see reduced stocking of domestic trout in Class II and III streams and cutbacks in staffing around the state.

Despite these changes, I hope that you’ll agree that the cost of the fishing licenses are pretty small compared to all the other expenses associated with a fishing trip. And with all of the great fishing here in Wisconsin, that this investment in good resource management is worth the cost. Please enjoy your Wisconsin trout fishing and we’ll see you on the water!

Sincerely,
Mike Staggs, Director
Bureau of Fisheries Management and Habitat Protection

WISCONSIN ANGLERS

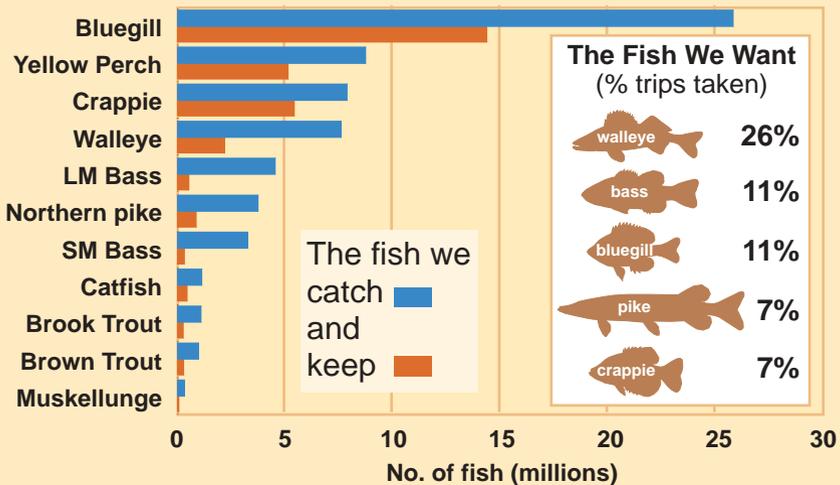

A mail-in survey was distributed to a subset of licensed anglers during the 2000-2001 season to collect information on Wisconsin anglers' habits and preferences¹. Who are we? Where do we fish? What do we catch and keep? Read on...

Who are we? We are 1.33 million licensed anglers of all ages. Residents purchased about 77% of the licenses while nonresidents purchased 23%. License holders were 76% male and 24% female.

Where do we fish? We fish nearly three-quarters of the time on lakes, ponds, and reservoirs. The rest of the time is spent fishing on rivers, creeks, and flowages.

What do we catch? Wisconsin anglers prefer to fish for walleye and bass, but catch and keep more panfish —bluegill, yellow perch, and crappie (see below). The average angler fishes almost 2 hours per trip, catches about 3 fish, and keeps one of them.
